

Intermediate Beekeeping Questionnaire.

Thank you for coming, we hope the day has been useful.

Please provide us with some feedback and your thoughts on how we can modify, develop or improve the course.

	1=grotty	5=very good	1	2	3	4	5
How well has the course met your learning needs?							✓
Comments: Helped consolidate areas I knew and filled in gaps of knowledge.							
Was the information presented well and clearly enough?							✓
Comments:							
Do you feel the day provided value for money?							✓
Comments:							
Is the balance between PowerPoint learning & practical hands on about right given that you do have to learn the boring bits?						✓	
Comments: Practical hands on very good - perhaps more expectation on everyone doing something (rather than ask for volunteers - can be a bit intimidating.)							

What do you need next? – e.g. a mentor, a more advanced course or revision learning day, a study group for the BBKA Basic Assessment????

Study group for BBKA Basic Assessment would be very useful - thinking of taking next year

What are your thoughts about the pre-course questionnaire? I find it useful to assess what information I need to cover for you but it is tedious to complete.

Took a long time to complete, but was useful for me to focus on what I know/need to know.

We are wondering whether we need to split the course into 2 separate days and give more information? What do you think? If the course is not very full making it into 2 separate day courses seems a bit problematic.

Think keep to one day. Might be difficult to commit to two days close together.

We should maybe rename the Intermediate Course and make it more clear that anyone who has had bees for a year can come. New names? Something that describes it better please

? Not very good at thinking of this kind of thing!

Any other comments (PTO if necessary)?

BBKA basic assessment

What are your thoughts about the pre-course questionnaire? I find it useful to assess what information I need to cover for you but it is tedious to complete.

The questionnaire in itself was thought provoking

We are wondering whether we need to split the course into 2 separate days and give more information? What do you think? If the course is not very full making it into 2 separate day courses seems a bit problematic.

I think one day is appropriate – plenty of information presented at the right pace

We should maybe rename the Intermediate Course and make it more clear that anyone who has had bees for a year can come. New names? Something that describes it better please

.... ? *"Beyond Basic" "Beyond the Basics" "Next steps"*

What do you need next? – e.g. a mentor, a more advanced course or revision learning day, a study group for the BBKA Basic Assessment????

To put ideas into practice & learn from mistakes. I have a mentor already. In future an advanced course

What are your thoughts about the pre-course questionnaire? I find it useful to assess what information I need to cover for you but it is tedious to complete.

Useful – but did make me question whether I was intermediate level. would be great

We are wondering whether we need to split the course into 2 separate days and give more information? What do you think? If the course is not very full making it into 2 separate day courses seems a bit problematic.

Personally one day is ideal due to long travel distances / cost / time

We should maybe rename the Intermediate Course and make it more clear that anyone who has had bees for a year can come. New names? Something that describes it better please

.... Possibly yes. I found it a useful

Follow on from the previous years
Any other comments (PTO if necessary)? beginner course -

but the term intermediate can be daunting.

Thank you very excellent
Isuey lunch & cake. Aloc

latest treatments; new research etc

Any other comments (PTO if necessary)?

As always brilliant!

Having done the course before
(and being a bit sad!)

I would like more in depth info on
treatments, ie/ how do they work...?

Recent research into disease etc....

But I think that would all be a
completely different course!

I feel a re-name would be a
good idea for today's course.

I am really enjoying all the courses
for revision - all very useful -

'Eventually' when I am more experienced,
an advanced course would be great.

Also.

✓ A fully practical course would
be great - for revision for bee health
+ beyond.

How well has the course met your learning needs?							✓
Comments: Having just checked my knowledge assessment giving my 'No's' have been changed to 'Yes' with the exception of 'bald brood' + 'chilled brood' - unless this has been covered under another name! Also 'wet comb'!							
Was the information presented well and clearly enough?							✓
Comments: Yes - great to have a USB given before the start to avoid excessive note-taking							
Do you feel the day provided value for money?							✓
Comments: Definitely!

What do you need next? – e.g. a mentor, a more advanced course or revision learning day, a study group for the BBKA Basic Assessment???

In now need to go + consolidate my notes from here and from Basic Assessment sessions so that they are now all in one place + easy to follow.

What are your thoughts about the pre-course questionnaire? I find it useful to assess what information I need to cover for you but it is tedious to complete.

Not tedious - a very useful process to go through, especially by way of my own revision for practising beekeeping/prepping for assessment.

We are wondering whether we need to split the course into 2 separate days and give more information? What do you think? If the course is not very full making it into 2 separate day courses seems a bit problematic.

2 separate days may well be problematic - time + cost may be prohibitive and therefore limit number of people choosing to come.

We should maybe rename the Intermediate Course and make it more clear that anyone who has had bees for a year can come. New names? Something that describes it better please

....
